

What's in your Drink?

First Taste: Resembles a kind of tingly cough syrup, and really tastes like a Monster. It has the burn your mouth kind of sour taste to it, making it not as enjoyable but still pretty good.

After Taste: The verdict is that it tastes like Smarties candy. It has a really sweet after taste to it and isn't the worst we've tasted.

Description of drink: Monster. The drink is almost exactly like a Monster except for the fact that it comes in a different container. There isn't much more to say about it.
